## **Sonos Controller for iPhone™ - Free Application**

The Sonos Controller for iPhone™ is a free application that turns your iPhone (or iPod® touch) into a full-fledged Sonos Controller. Plus, it uses the familiar touch-screen interface and fits in your pocket so you can carry it with you all over the house. Best of all, you can download it for free on the App Store in seconds. Just grab your iPhone and simply touch the screen to pick a room, point and flick to pick a song, and then hit play. Grouping zones and searching tracks has never been easier. You can mix and match Controllers (CR100, Desktop Controller and Sonos Controller for iPhone) for maximum flexibility. Or get started with Sonos using the iPhone you already own and one or more ZonePlayers spread throughout your house.

### **Wireless, multi-room control from any iPhone or iPod touch**

Control all your music and all your rooms from any iPhone or iPod touch. It's a free application, takes advantage of touch-screen technology, and fits in your pocket for the ultimate in portability. The Sonos Controller for iPhone lets you control your entire Sonos system over your home WiFi network. Use it as your only Controller or in combination with the handheld and desktop Sonos Controllers.

### **Touch screen makes it fun and easy**

When it comes to browsing through music libraries, searching for songs, viewing album art, or linking and unlinking zones, the Sonos Controller for iPhone makes it all incredibly easy. Thanks to iPhone's intuitive touch interface, you can control your entire music experience with a touch of a finger. Quickly search for your favorite artists by typing on the virtual keyboard and browse through albums by pointing and flicking.

## **Instant access to endless music**

With Sonos ZonePlayers and any iPhone or iPod touch, you can find and play any song from your personal collection of music stored on your computer, plus thousands of free Internet radio stations. And the Sonos Controller for iPhone works seamlessly with the most popular music services so you can stream millions of songs and stations from the Internet to the rooms of your choice. Click on the features tab to see music services supported by Sonos.

## **New features and music services with automatic updates**

Unlike most other consumer electronic products, the entire Sonos system keeps getting better even after you buy it. With free automatic software updates you'll always have the newest features and music services to enjoy. The App Store will automatically notify you when software updates are available.
