

Features – Sonos Desktop Controller Software

Wireless, multi-room control from any computer or laptop

Integrated, multi-room control	Lets you control what music is playing in every room in your house, from anywhere in your house. Control of your music is not tied to the room where you're listening.
Unique design dedicated to multi-room music control	Everything is carefully designed to let you control your music anywhere and everywhere.
Find out what's playing anywhere in your home	The Now Playing screen shows you what's playing in the rooms you're in with details like album art and elapsed time of a song. The Zone Menu gives you an overview of what's playing in each room of the house at a glance.
Flexible playback options	Control what zone or group of zones plays the music selected. Put it in "Party Mode" to play the same songs all over the house. Set shuffle/repeat playback as desired.

Instant access to endless music

Plug-and-play access to millions of songs	Get instant access to millions of songs on your Desktop Controller that you can enjoy all over your house. No ripping or downloading required.
Liberate the music on your computer and enjoy it in every room	Sonos can play music stored on up to 16 PCs, Macs or NAS (Network Attached Storage) devices on your home network, supporting the most popular audio formats.
Easy access to Internet radio and online music services	Listen to millions of songs and Internet radio stations.
Pre-loaded Internet radio stations	Comes loaded with more than 25,000 radio stations and it's

	simple to add more using the Desktop Controller.
Play music or audio from MP3 players, CD players, TV, DVD, VCR, and radio throughout the house	An analog audio input with digital encoding on every ZonePlayer lets you play music from an external audio source (such as an MP3 player, CD player, TV, or radio) and enjoy throughout the house.
Support for the most popular music services	Last.fm, Napster®, Pandora®, Rhapsody® 3.0+, SIRIUS® Internet Radio, and downloads from any service offering DRM-free tracks.

Find, discover, and control your favorite music with ease

Browse through music selections	Browse your music collection and favorite music services by Artist, Album, Genre, Track Name, Composer, or Playlist.
Search	Quickly find the music you want to hear by searching for the artist, album or track within your personal music collection or favorite music service.
Display of album art	View album art, including detailed track information.
Single library view	Regardless of where your music is stored, Sonos presents a single view of your entire library (all artists, albums, composers, genres, etc).
Queue-based music playback	You can queue-up music to play next while listening to what's playing now

Other cool features

Wake up to music	Set the alarm and wake up to your favorite music or Internet radio station in one room, or all over the house. Just hit snooze to get a few minutes more sleep. Fall asleep to soothing music with the sleep timer.
Schedule your music	Use the scheduler to play music at a specific time for a set duration—great for that 30-minute workout.

Automatic software updates: Sonos keeps getting better

New features and music services	The Sonos system keeps getting better over time with new
