

Features - Sonos ZonePlayer ZP120

Powerful digital amplifier delivers audiophile-quality sound in any room

Built-in, powerful digital amplifier	Powers large or small speakers with 55W per channel.
Class-D amplifier	State of the art, great sounding amplifier that is light weight, small and very energy efficient.
Radiant cooling	Operates silently — all you hear is the music, as the amplifier is kept cool by the aluminum casing, not by a noisy fan.
Tone and volume controls adjustable for each zone	Optimize sound performance for each zone using zone-specific bass, treble, balance, and loudness controls. Adjust volume by individual zone or by groups of zones.
Subwoofer output with automatic crossover	When adding a subwoofer, the ZP120 automatically adjusts the output to send the low frequencies to the subwoofer and the high frequencies to the speaker.

Wireless, multi-room music with SonosNet 2.0

Built-in wireless capability	<p>The ZP120 can go anywhere, delivering music to any room in your house, wirelessly. ZonePlayers and Controllers establish their own secure wireless mesh network that delivers the extensive range and superior performance you need to get music all over your house.</p> <p><i>NOTE: To get started, you must connect either a ZonePlayer or ZoneBridge to your home network using a standard Ethernet cable.</i></p>
SonosNet 2.0 wireless mesh network technology	<p>Doubles the wireless range of previous ZonePlayers. Provides whole-house coverage, ensures synchronous music playback, and avoids sources of wireless interference.</p> <ul style="list-style-type: none"> • Works between any mix of ZP90s and ZP120s • Compatible with all previous generations of Sonos

Features - Sonos ZonePlayer ZP120

Powerful digital amplifier delivers audiophile-quality sound in any room

ZonePlayers, Controllers, and ZoneBridges

Multi-room music playback	Links to all other ZonePlayers and Controllers in your house to create a true multi-room music experience.
Listen to the same song in multiple rooms, perfectly synchronized	Plays the same song simultaneously in different rooms without echoes or delays. Link and unlink ZonePlayers and still be in sync.
Listen to different songs in different rooms	Plays different songs in different rooms, simultaneously.

Instant access to endless music

Plug-and-play access to millions of songs	Sonos plays music from your personal music collection, Internet radio, and the most popular online music services.
Liberate the music on your computer and enjoy it in every room	Sonos can play music stored on up to 16 PCs, Macs or NAS (Network Attached Storage) devices on your home network, supporting the most popular audio formats.
PC-free access to Internet radio and online music services	Listen to millions of songs and Internet radio stations, without turning on a computer.
Pre-loaded Internet radio stations	Comes loaded with more than 25,000 radio stations and it's simple to add more via the Sonos Desktop Controller.
Play music or audio from MP3 players, CD players, TV, DVD, VCR, and radio throughout the house	The ZP120's audio input with digital encoding lets you connect to an external audio source (such as an iPod, CD player, TV, DVD, VCR, or radio) and play music or audio on all ZonePlayers in the system.
Support for the most popular music services	Last.fm, Napster®, Pandora®, Rhapsody® 3.0+, SIRIUS® Internet Radio, and downloads from any service offering DRM-free tracks.

Simple setup and expansion

Simple setup	Plug in to power and connect to speakers.
Expandable system design	Allows you to expand your music system room by room. Add new ZonePlayers with the press of a single button.

Automatic software updates: Sonos keeps getting better

Other cool features

Wake up to music	Set the alarm and wake up to your favorite music or Internet radio station in one room, or all over the house. Just hit snooze to get a few minutes more sleep. Fall asleep to soothing music with the sleep timer.
Schedule your music	Use the scheduler to play music at a specific time for a set duration — great for that 30-minute workout.
Easy Internet connectivity for other products in your house	The ZP120 has a two-port Ethernet switch to bring standard Internet connectivity to your set-top box, DVR, PC, game console or NAS drive.
Includes Sonos Desktop Controller software and setup software for your computer	Control all your music and all your rooms from any computer or laptop in your house. Setup software facilitates music sharing so music folders on your hard drive can be shared across all ZonePlayers.
Front-panel volume controls	Provides quick access to volume and mute controls when you don't have a Controller in hand.
Compact size	So small, it fits almost anywhere.
